

AXISCORE SOLUTIONS *Natural Stones*

**“IF YOU CAN DREAM IT,
YOU CAN DO IT.” -WALT
DISNEY**

POWERING INDIA'S INFRASTRUCTURE, **ONE CORE AT A TIME**

At AxisCore Solutions Pvt Ltd, our Natural Stone Division is dedicated to bringing India's finest granites to the world. **Headquartered in Ahmedabad and manufacturing facilities in Rajasthan** we blend innovation, sustainability, and craftsmanship to transform spaces and strengthen foundations.

We offer a curated portfolio of over **30+ granite varieties** — each selected for its unique character, finish, and durability. Backed by a state-of-the-art processing facility, in-house quality control, and export-grade infrastructure, we serve residential, commercial, and infrastructure projects across India and abroad.

Crafted by nature. Perfected by AxisCore.

TIMELESS
BEAUTY.
INFINITE
STRENGTH.

At AxisCore, we bring to you India's rich geological legacy, offering a curated range of granites and marbles sourced from **Rajasthan, Gujarat, Telangana, and Karnataka.**

Popular Ranges:

- **Crystal Brown** – Rich linear textures from South Rajasthan
- **Commando Black** – Sleek, polished elegance with high durability
- **Malvada Pink** – North India's earthy floral masterpiece
- **Volga Black** – Jet-black finesse for luxurious spaces
- **Apple Green & Devda Green** – A rare blend of calm hues for statement designs

Available Finishes:

Mirror | Leather | Lappato | River | Flaming

Customization Options:

Edge cuts, thickness (16mm onwards), lengths (up to 10 ft), and container loading optimization for export orders.

PRECISION FROM QUARRY TO QUALITY

Our in-house processing capabilities ensure every slab is crafted to perfection:

- **Dressing Cutter:** Raw blocks are cut into accurate shapes
- **Multi-Cutter Line:** High-speed blades for seamless slicing
- **Edge Cutting & Calibration:** Precision finishing for export standards
- **Polishing Units:** 12-head automatic polishers for custom textures

Daily Output Capacity: 3,000+ sq. ft. of finished granite

QC Team: Ensures each slab meets architectural standards across regions

AXISCORE STONE MACHINERIES

Our state-of-art processing plant consist of:

- **Dressing Cutter:** First the blocks are cut in dressing cutter where they are properly shaped in the required length & height.
- **Multi cutter:** The dressed blocks are then cut into slabs in our 10 bladed highly advanced multi cutters in the required thickness.
- **Edge cutter:** The slabs then are properly shaped through the edge cutter and passed into the polishing machine through conveyer belt.
- **Polishing machine:** In our 12 head polishing machine, various types of texture and polishing is given to the slabs (from mirror smooth polish to rough leather and river finish).

WHY CHOOSE AXISCORE STONES
