Company Overview

AxisCore Solutions Private Limited is a manufacturer-driven infrastructure company that delivers engineered materials and integrated project solutions across India and global markets. Unlike traders or aggregators, AxisCore manufactures in-house, providing full control over quality, timelines, and customization through their direct-from-factory model.

VISION

To be the most trusted and innovative manufacturing partner for infrastructure materials and energy systems — across India and globally — by setting new benchmarks in quality, reliability, and execution.

MISSION

- To manufacture and supply technically sound, application-specific products that meet or exceed international standards
- To simplify multi-material procurement for clients through an integrated portfolio
- To deliver solutions with transparency, speed, and accountability from factory floor to project site
- To foster long-term relationships by consistently adding value at every stage of the construction and infrastructure lifecycle.

Core Values

AxisCore operates on five fundamental principles:

Integrity - *Transparency, ethics, and fairness in all operations*

Precision - *Accuracy and quality in manufacturing and execution*

Dependability - *Timely, consistent supply for client reliability*

Innovation - *Continuous process and technology upgrades*

Partnerships - *Growing together with clients, vendors, and teams*

Product Portfolio & Manufacturing Capabilities

Rebar & Coupler Solutions

- We offer mechanical couplers and threaded splicing systems, along with cut, bend, thread, and fabrication services.
- All products comply with IS and BS standards for RCC projects.
- Couplers are precision-machined using EN8, C45, and EN8D grade materials, ideal for use in bridges, tunnels, industrial foundations, and towers.

Natural Stones Division

- AxisCore offers over 30 premium granite varieties sourced from Rajasthan, Gujarat, Telangana, Karnataka, and other regions.
- Our processing facility delivers a daily output of over 3,000 sq. ft., handling granite, marble, and sandstone in the form of blocks, slabs, and tiles.
- We offer multiple surface finishes including Mirror, Leather, Lappato, River, and Flaming.
- Equipped with a state-of-the-art 12-head automatic polishing line, our unit ensures consistent quality and precision.
- Our infrastructure also supports export-grade packaging and logistics for global deliveries.

Solar Energy Systems

- Over 10 MW of capacity installed across 50+ successful projects.
- We provide end-to-end EPC services for rooftop, ground-mounted, and hybrid solar systems.
- Solutions include both on-grid and off-grid setups with complete net metering support.
- We maintain a 95%+ client retention rate and ensure over 99.5% system uptime.
- We partner with leading Tier-1 manufacturers like Sineng Electric, Huawei, SMA, ABB, Schneider Electric, and more.

Power Equipment & Solutions

- We supply transformers, servo stabilizers, industrial inverters, and generators.
- Our services include design, installation, and commissioning of electrification and substations.
- We execute underground power transmission and distribution projects.
- Railway electrification solutions include Overhead Equipment (OHE) installations.
- All systems are built to specification and undergo rigorous testing with strict safety protocols.

Wood Solutions

- In-house manufacturing and processing of plywood, laminates, and veneers.
- Architect-grade products that are moisture-resistant and termite-proof.
- High-quality timber and lumber for furniture, interiors, and structural applications.
- Custom fabrication and finishing tailored to project needs.
- Sustainably sourced and certified wood materials.

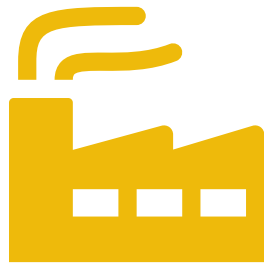

General Contracting Services

- We offer civil, electrical, solar, and material execution services under one roof.
- Our team handles complete project management—from concept to completion.
- We specialize in industrial sheds, institutional buildings, and MEP integration.
- Services include site supervision, quality control, and strict safety compliance.

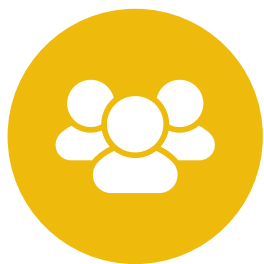

Infrastructure & Operations

***Facilities across India
with strategically
located production
capabilities***

***Serving clients in UAE,
Africa, USA, Europe,
and other international
markets through major
ports of India.***

***50+ skilled engineers,
QA specialists, and
project leads with
proven industry
expertise***

***ISO 9001, BIS, GST,
IEC compliance, MNRE
approved vendor
status***

Project Highlights

Solar Projects Impact:

CO₂ Emissions Avoided: 9,600+ tonnes annually

Renewable Energy Generation: 12+ million kWh annually

Employment Generation: 200+ direct & indirect jobs

Energy Cost Reduction: 40-70% for clients from day one

Competitive Advantages

Direct Manufacturing Control

No trading or third-party sourcing ensures better pricing, faster execution, and zero dependency

Integrated Portfolio

Single-source partner for multiple material categories, reducing procurement complexity

Global Standards

Export-ready packaging, compliance documentation, and international quality standards

Technical Expertise

Engineering-led approach with on-site support and customization capabilities

Proven Track Record

10+ years of industry experience with consistent quality delivery and client satisfaction
